PHARMACY INFORMATION

To better meet our patients' needs, we can now dispense many oncology/cancer related medications that are prescribed by our physician(s). We will bill your pharmacy insurance and charge the applicable co-pay. These are not billed under your standard medical benefit.

Please understand that you are not obligated to have prescriptions filled here and you have the option of receiving your medication from the pharmacy of your choice. We would be happy to facilitate this for you.

Would you like to have your prescriptions that are prescribed by our physician(s) filled at our office?

Please circle: YES NO

MEDICARE PART B PATIENTS

I understand that my medication(s) can be billed under my Medicare Part B benefit but would prefer for Essex Oncology to fill my medication using my prescription benefit.

I understand that if I choose not have my prescription filled thru the pharmacy my out of pocket and/or deductible will be due at time of visit.

Please circle YES NO
